Inventory adjustments file

The inventory adjustments file lists changes to your stock made in the warehouse, such as count corrections and damaged stock. Use it to keep your stock levels in step between inventory files.

Direction	Capacity to you
Folder	`OUT/InventoryDelta` in your folder on `ftp01.capacityllc.com`
When	Every 30 minutes from 06:35 to 20:35 US Eastern. No file is written when nothing changed.
What it holds	One line per stock movement recorded since the previous file. Each movement appears in one file only.

How to read it

- `Quantity` is the change, not the new balance. A positive number adds units to your stock; a negative number removes them.
- Apply the files in the order of the time in their names, `InventoryDelta-yyyy-MM-dd-HH-mm-ss.txt` (24-hour clock, US Eastern).
- `TransactionType` is `ADJ` for an inventory adjustment. Other transaction codes may appear for other kinds of stock movement. Apply them the same way, using `Quantity`.
- Receipts are not in this file. They are reported in the receiving confirmation.
- Pick up each file, then delete it or move it out of the folder. Capacity keeps a copy.

Layout

File name	`InventoryDelta-<yyyy-MM-dd-HH-mm-ss>.txt, for example InventoryDelta-2026-11-10-14-35-02.txt`
Delimiter	Tab

Header row	Yes, first line, with the column names below in this order
Columns	11
Quoting	Not supported. Values must not contain tabs, line breaks or double quotes.

#	COLUMN	TYPE	MAX LENGTH	REQUIRED	DESCRIPTION
1	`TransactionType`	Char	10	Yes	Kind of inventory movement. Other transaction codes may appear for other kinds of stock movement; treat any code you do not recognise as a movement of the Quantity shown. • `ADJ` Inventory adjustment
2	`SKU`	Char	30	Yes	The Capacity SKU that changed.
3	`UPC`	Char	60	No	Alternate SKU or UPC recorded for the product. Empty when none is set.
4	`Quantity`	Integer	10	Yes	Change in units. Positive adds stock, negative removes it. Never zero.
5	`Date`	Date and time `MM/DD/YYYY HH:MM:SS`	19	Yes	When the movement was recorded, 24-hour clock, US Eastern.
6	`Reason`	Char	50	No	Reason recorded in the warehouse for the movement, for example INV ADJ.
7	`RefNumber1`	Char	50	No	Reserved. Empty unless agreed with Capacity during onboarding.
8	`RefNumber2`	Char	50	No	Reserved. Empty unless agreed with Capacity during onboarding.
9	`RefNumber3`	Char	50	No	Reserved. Empty unless agreed with Capacity during onboarding.
10	`LotNo`	Char	50	No	Lot number of the stock that changed. Empty for a product without lot tracking.
11	`ExpiryDate`	Date `MM/DD/YYYY`	10	No	Expiry date of the lot. Empty for a product without expiry tracking.
